

Electrical Services

Lane Valente Industries is your single source for the design, installation, repair, maintenance and upgrade of all electrical systems.

With over 50 years in electrical experience, our processes make possible the most effective and efficient use of time while minimizing business disruption and impact on sales. Lane Valente provides your team with nothing less than dependable technicians on the ground in every major market across the country. So it's no surprise that Lane Valente has one of the largest self-performed networks of licensed electricians.
