

Meet our EV team

Ken Wrenn
Director, Electrical Operations

Ken has 30 years of experience, and he holds electrical licenses in numerous states. He has worked in just about every environment, including EVSE, multi-family, hospitality, medical, financial, and data centers. Ken is certified by the State of New York to instruct others in electrical technology, as well as OSHA standards.

Troy Uhrich
Senior Electrical Lead

Troy is a licensed master electrician with over 30 years of experience. His resume includes managing teams for high and low voltage work in most environments, including utility companies, EVSE, retail, multi-family, hospitality, medical, and government. Troy is certified by ABB, ChargePoint, BTC Power, and Tesla.

Joseph Laquidara
Project Manager

Joe has over 20 years of experience in commercial construction management. He is responsible for many operational tasks including budget management, estimating, zoning & permitting, scheduling, contract management, equipment procurement, and environmental safety.
